LESSON 1

INTRODUCTION TO COMPUTERS

Read the Module Introduction, the Outline, and the learning objectives for Chapter 1. Read and study page 5 through page 18.

OBJECTIVE

To understand what a computer is and what a computer can do.

If you have a home computer, see how many of the components on page 15 you can find on your computer.

LESSON 1 QUIZ

1. What are some ways computers are used in education?

2. What are some ways computers are used in business?

3. What is a computer programmer?

4. Do you have a computer in your home? How is it used?

LESSON 2

INTRODUCTION TO COMPUTERS

R Read from the page 19 to the middle of page 27.

OBJECTIVE

To understand different types of computers.

LESSON 2 QUIZ

1. What different kinds of computers (desktop, laptop, phone, gaming system, etc.) do you have at your home?

2. What is a personal computer (or microcomputer)?

3. What is an Internet appliance?
