Day 4

Geography Skills 2: Lesson 4: Symbols and Signs

Assign lesson.

Optional Enrichment Ideas

Most students will find this lesson easy and fun. Make sure you point out signs as you travel. Ask what they mean. At this age many students do not understand speed limits. You can explain what they mean. Signs are sometimes used to give information. Other times, they are for our safety. Have your student look at the traffic signs and decide if they are for information or for safety.

**HISTORY 2 LESSON PLAN****Day 4****Geography Skills 2: Lesson 5: Color and Lines on a Map**

Assign lesson.

**Optional Enrichment Ideas**

Place a dot where you live on the map of the continents. Point out the approximate locations of where extended family live, or where Dad or Mom went to university. If you know, discuss your family origins. “This is Ireland where Mom’s great-grandpa was born. He moved to New York, but his brother moved to Australia.” If you enter the name of a continent in a search engine, you can find interesting pictures online.

Parent: Please write the average First Quarter grades in Section A of the First Quarter Report Form and send it to Seton.

If you wish, you may enter the home grade averages over the Internet instead. Log on to your MySeton page, on the top right of Seton’s website (www.setonhome.org), by entering your family ID number and password. In the upper right corner, be sure to click on the name of the correct student. Then click Courses on the top of the page. Go to History 2 in the table and click on “view” under Q1. You will see a yellow box for the home grade. Day 4

Geography Skills 2: Lesson 9: Landforms

Assign lesson.

Optional Enrichment Ideas

Remind your student that South America is a continent. Although it appears small on this map, in reality, it is quite immense. The “flat plains” area on the north side of the continent is the Amazon River basin. The Andes Mountain Range dominates the western side of the continent. You can find some breathtaking images of both online.

Parent: Please write the average Second Quarter grades in Section A of the Second Quarter Report Form and send it to Seton.

If you wish, you may enter the home grade averages over the Internet instead. Log on to your MySeton page at www.setonhome.org. In the upper right corner, be sure to click on the name of the correct student. Then click Courses on the top of the page. Go to History 2 in the table and click on “view” under Q2. You will see a yellow box for the home grade. To enter a grade, click on “Enter Parent Grades.” This will open a new blank box in place of the yellow one under “Grade.” Type the grade in this box, and click on “Submit Parent Grades.”

Assign lesson.

Optional Enrichment Ideas

This is another lesson where the two times table comes in handy. This lesson not only introduces pictographs, but also walks learners through some problem-solving steps. Because this generation no longer works in the family barn, or delivers newspapers, it can be tougher for young students to adapt to changing situations. Look for opportunities to teach this skill.
