This lesson plan provides general instructions and course guidance, but does not provide weekly or daily assignments.

VOCABULARY 6 LESSON PLAN

INTRODUCTION

The text-workbook contains three pages of Notes for Parents. It is important to read these before beginning as they explain in some detail the purpose of the course. We encourage you to look through the text-workbook as we explain the format for the lessons.

Each lesson has an entertaining Reading Selection which includes the vocabulary words to be studied for the lesson. Our teacher has written some interesting, unique, often humorous stories which incorporate vocabulary words which are appropriate for this grade level.

Be sure your student works through the Exercises B and C. They demand a little more thoughtful analysis, but students can figure it out if they work at it. A little stretch of the imagination will eventually become fun! The Exercise D sentences help to integrate some Catholic thoughts about the Faith and Catholic family life. Crossword puzzles are so popular with students of this age that we have included one in every lesson.

We encourage you to purchase a thesaurus for this grade level. Seton sells an Intermediate Thesaurus for grades 5 and 6. You may find one at your local bookstore. If your student uses a thesaurus, vocabulary assignments and writing assignments will improve.

With the popular culture, extensive vocabulary has fallen by the wayside. Let's do what we can to improve vocabulary for our children so that they may express themselves more precisely.

GLOSSARY

This Lesson Plan includes a Glossary of the vocabulary words in the textbook.

GRADING

There are six lessons per quarter, for a total of 24 lessons. There is a quiz for each of the 24 lessons, and there are four quarter tests. A quarter test may be taken any time during the seventh, eighth, or ninth week of each respective quarter.

At the end of each quarter, please submit the quarter test to Seton along with the appropriate Quarter Report Form, or you may scan the test and upload it to the Seton website (www.setonhome.org). To upload tests to Seton, log on to your MySeton page, click on Courses, scroll down to Vocabulary 6, and click on the appropriate icon. **Your child may take the quarter tests directly online instead.** To take tests online, log on to your MySeton page, click on Courses, scroll down to Vocabulary 6, and click on the icon for taking online tests.

We encourage you to grade the lesson quizzes. If you would like these quiz grades to be part of your student's quarter grades, please include the average quiz grade for each quarter in Section A of the Quarter Report Form, or you may submit these parent grades online from your MySeton page on the Seton website. If you submit parent grades, the quarter test scores will be averaged with those parent grades. If you do not submit parent grades, the quarter grades will be based solely on the quarter tests.

Enjoy this course! God bless you and your family.
